

Quinten Dumez

Personal information

I like to astonish people with technology. I have rich imagination, I am open-minded to new technical concepts and I always feel the urge to turn them into reality. Next to my study I like to visit theme parks and working in 3D-CAD software. I am very interested in the interaction between safety and capacity of machines.

Education

2018 – present	Bachelor Engineering HZ University of Applied Sciences Specialism: Mechatronics Minor: Research in Immersive Storytelling
2016 – 2018	Firefighter Institute Physical Safety Firefighting and provide technical assistance. Carry out exercise scenarios.
